

## New Massachusetts Office

In an effort to provide an even higher level of service to existing and future clients in Massachusetts and southern New England, Lavallee Brensinger Architects is please to announce the opening of its new office at 92 Montvale Avenue, Suite 2150, Stoneham, MA. We look forward to hosting you at this new location.

## New Associates

Lavallee Brensinger Architects is proud of its 34-year history and vision for long-term, sustained growth and success. We are fortunate to have a team of extraordinary people who work tirelessly to serve our clients. Please join us in congratulating **Joan Eagleson**, **John Harper**, and **Lance Whitehead** who have recently been promoted to Associates of the firm. They each share the firm's passion for client service, high quality design, and responsible project management.

## Project News

**City of Manchester New Municipal Complex** - Ground has broken on the New Municipal Complex, the largest new project of its type in New England. Designed to greatly improve efficiency and safety, the project creates a new home for the Department of Public Works which includes the Facilities and Parks and Recreation Departments. Maintenance garages and support facilities will now be located on a single site, and the Manchester Water Works will share yard space and other services. Anchoring the northwest corner of the 9 acre urban site will be a new headquarters for the Manchester Police Department.

Manchester Municipal Complex

**Exeter Hospital Epping Medical Office Building** - Lavallee Brensinger Architects' unique approach to efficient medical practice planning will be applied on this project. With a goal to design a prototypical medical office building to serve as the standard for the Exeter Healthcare system, the new facility will be guided by Lean design principals, optimizing operations and the patient and staff experience.

**Rochester K-8 Schools Study** - The firm's education planning team has been selected to assist the City of Rochester, NH in an evaluation of its existing K-8 schools. The effort will include 7 elementary schools and 1 middle school, and will provide the City with an implementation plan and public communications campaign to facilitate continued growth and improvement of their educational system.

**Concord Hospital** - As a longstanding partner with Concord Hospital, the firm is currently providing architectural services on multiple projects. Initiatives in progress include an expansion and renovation of the hospital's maternity unit, The Family Place, as well as renovations of the day surgery unit, pre-surgical testing, and cath lab.

**Kingston Library** - Designed by Lavallee Brensinger Architects to high energy efficiency and sustainability standards, the new Nichols Memorial Library is a center of information and community focused programs. The new facility serving the Towns of Kingston and Newton, NH, commences construction in June, with completion targeted for early 2012.

## W. Keith Davis Joins Our Team

As we expand our presence throughout the region, we continue to seek highly qualified and experienced new staff. Most recently, we are excited to have W. Keith Davis join our Healthcare Design Group. Keith offers twenty years of experience in healthcare planning and design, delivering creative solutions that are sensitive to hospital, patient, and provider needs. His collaborative style encourages an open, honest, and inclusive approach to sharing ideas, and we are thrilled to welcome him to our team.
